

A Rugged, Efficient, Easy to Install Live Storage Rack For Rapid, Low-Effort Stock Picking.

- 1 Uprights can be spaced to match desired wheel-rail and cross beam spans
- 2 Long span heavy duty wheel rails less structure to buy and erect
- 3 Long span cross beams allow more efficient use of the cube
- 4 Quick clamping adjustments to suit carton widths
Cross beams are individually adjustable

- 6 Wheel stop front for low effort picking
- 7 Zipflo conveyor (optional) allows quickest disposal of carton. Height adjustable, no loss of vertical carton space
- 8 Layer of cartons below conveyor adds to save space efficiency
- 9 Foot pads provided for lagging
