

TYPICAL MONOFLO APPLICATIONS

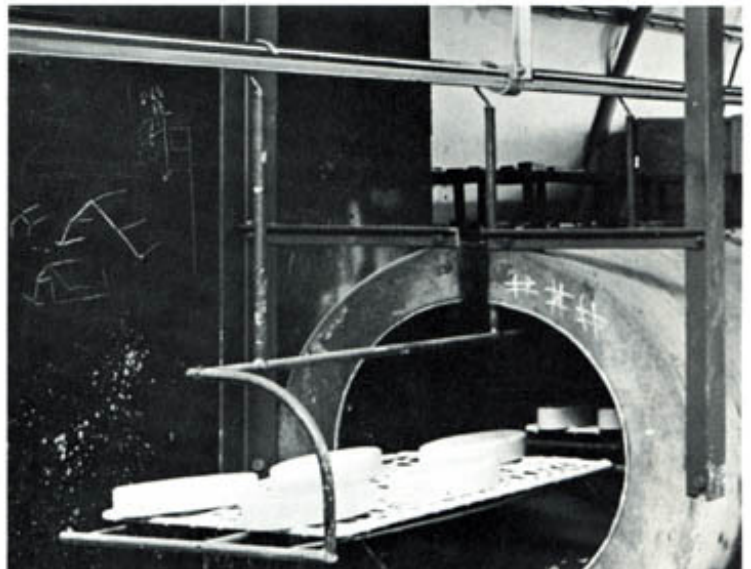

Stock man loads full day's parts requirements on Monoflo Conveyor in correct sequence for assembly line. This provides "poor man's automation" to a "job shop" operation.

Monoflo Conveyor delivering garments from floor above to a slick rail. Automatic counter keeps record of the number of items transferred to the storage rail.

Venetian Blind assembly is mechanized by a low cost Monoflo line.

Painted covers from spray booths are conveyed through oven on a Monoflo conveyor.
